DEMANIO MARITTIMO.KM-278

SPAZIOCORPO

XIII Edition of the night dedicated to architecture, arts, and design

Marzocca di Senigallia

Friday 21 July 2023 from 6pm to 6am

Demanio Marittimo.KM-278 is a marathon dedicated to **arts, architecture, design** and to the Adriatic dimension curated by **Cristiana Colli and Pippo Ciorra**. As every year, the **XIII Edition** takes place on the beach of **Marzocca di Senigallia on Friday, 21 July** from 6 pm to 6 am. 12 hours of conversations, lectures, performances, films and installations will turn the beach into an actual public space, a land of welcome and exchange.

The title of this edition is **SPAZIOCORPO**, and takes place in a time of great questions, conflicts and fragilities at all scales, perhaps never experienced with such an intensity in the recent past. The title implicitly refers to many of Demanio's 'core concepts': community, coexistence, project, culture, knowledge, vision, development, and care, here translated into agency by artists, architects, scholars, entrepreneurs, scientists, institutional men and women and authors in the broadest sense.

As for every edition the setting for the events is the result of a competition open to students from the **School of Architecture of TU Wien - University of Vienna**. The **winning proposal** is "**Swim**" by **Theresa Pühringer, Johanna Mullins, Leonie Murero**.

Demanio will traditionally open with a tribute to a Master of this Territory, **Enzo Cucchi** from Morro d'Alba, an artist celebrated all over the world.

The program is far-reaching and fully interdisciplinary. **Luoghi in cammino** narrates forms of regeneration, rebirth and cultural re-thinking with **Florinda Saieva, Renzo Macelloni** and **Giulio Vesprini**. The contemporary development of the **new Albania** will be discussed by **Erion Veliaj** with **Anilda Ibrahimi, Mario Cucinella, Massimiliano Tonelli**. The complex contemporary relations between 'Corpo' and 'Spazio' (*body and space*) are discussed in the new frames generated by our times by a panel including **Emanuele Lugli, Francesco Benelli, Martina Ardizzi, Antonio Lo Campo, Paolo Conte**.

Today Italo Calvino would be 100 years old: **Francesca Molteni** will introduce **Francesca Serra** and her **Atlante Calvino**, a graphic project that explores the writer's work from the new point of view of visual storytelling.

The frontiers of **design** are explored by **Marco Sammiceli** with **Enrico Fratesi**.

The XIII Edition has given life to an ideal **partnership with the 18th Architecture Biennale**, curated by Anglo-Ghanaian **Lesley Lokko**, who focused her curatorial effort in the same direction as many of Demanio's usual themes. A marathon of panels will involve a number of curators of national pavilions and exhibited artists, with presentations by **Alexandra Cruz** (Oslo Architecture Triennale), **Irhana Sehovic** e **Dunja Krvavac** (Dani Arhitektura Sarajevo), **Josephine Michau, James Taylor Foster, Karin Sander, Fosbury, Mia Roth Cerina, Meriem Chabani** and many others. The Biennale marathon will have interludes with talks by **Philippe Rahm, Matilde Cassani, Michael Obirst, Pierpaolo Tamburelli, Angela Vettese** and **Marco De Michelis** will discuss the issue of *Bodyspace* in the arts, whereas **Luca Galofaro** and **Manuel Orazi** will interview **Sara Marini** as the founder and editor of **Vesper**, architecture journal.

This year's edition establishes a connection with the exhibition **Camere con vista. San Benedetto/Pesaro. Andata e ritorno**, curated by **Cristiana Colli** and **Carlo Birrozzi**. Supported by a grant *Strategia Fotografia 2022* issued by the General Directorate for Contemporary Creativity of the Italian Ministry of Culture. It presents the works of four authors - photographers **Luca Capuano**, **Paola De Pietri**, **Pierluigi Giorgi** and sound artist and film maker **Alessio Ballerini**. The featured artists will dialogue with **Andrea Pollarini**. Photography will have another special guest: **Mario Cresci**, interviewed by **Marco Scotini**.

As every year, the food experience presents original stories. This year's protagonist is Cheffa - **Maria Vittoria Griffoni**, who'll provide Demanio with a dinner box, imagined as micro-architecture set up as a meal. There will be the new Gin del Demanio from the ideas and skills of Spaccio Senigallia.

Late hours before dawn will be the stage for a **video marathon**, including the premiere of the projects developed by **MAXXI & LINA platform** with **Rebeka Bratoz**, **Meriem Chabani** and **Allan Mensah**, plus others variously related to the subjects discussed along the night

The event is promoted by **MAPPE** magazine, **Gagliardini Editore**, **Associazione Demanio Marittimo.Km-278** with the collaboration of **MAXXI**, the **Municipality of Senigallia**, the **Marche Region** and with the support of a wide network of companies, institutions and associations.
